

BUILT TO RESIST

APPLICATION

## Self Propelled Machines

The Var-Spe speed variator is used to drive the machine wheels.  
The input power can be a diesel/petrol engine or an electric motor.

### BENEFITS

- **Infinite variable** gears function
- **Output rotation reversing**
- **Manual lever** or **remote speed control**
- **Zeroing** with motor on
- **Compact solution**
- **Available also in split solution** (pump and hydraulic motor)
- Solution when **electricity is not available**

Quarries cutting machine

BUILT TO RESIST

Harvesting fruit machine

- FORWARD/BACKWARD
- WIDE SPEED RANGE
- UNDER THE OPEN SKY APPLICATION
- HAND ENVIRONMENT
- LONG LIFE

Floor saw machine

PRODUCT RANGE

K2 (0,37-0,55-0,75 kW)

K4 (1,1-1,5 kW)

K5 (2,2-3-4 kW)

15 (3-4 kW)

16 (5,5-7,5 kW) 16B (11 kW)

17 (15 kW) 17B (22 kW)

Atex-certified variators  
(0,37-22 kW)
